Message

I am very glad to know that Pristine Skill Power Pvt.Ltd. is going to publish its prospectus on various programmes. Many of the programmes of Pristine are innovative in nature, specially for practice training and imparting of skill through digitized based lesson with animation and graphics. It will go a long way in improving the training and education standard of fire fighting practices. I am confident that these programme would be beneficial to the participants and update them for better service to the community. I wish the programme a grand success.

Dr. Janardan Jha

Message

With the advancement of technology and its application, safety to life and property summons larger attention. Skilled to build and prosper needs simultaneous enhancement of furtherance of skill to safeguard the creation. Taller is the Structure, larger and stubborn is the base. Higher one flies, much precision in operation needs. Safety from fire and its hazards and disasters is of paramount interest in today's context, not only in India, but, worldwide. In view of above, Pristine Skill Power Pvt. Ltd. is committed to design courses, curriculum, content, training, research and placement opportunities as needed.

Amitava Datta

SCOPE OF FIRE SAFETY

The job of a fire fighter is one of the most daring and challenging profession in today's modern living it is not only to save human life, but, also saving of self while combating the onslaught of fire, needs high grade skill, training and nerve with physical fitness.

India needs fire safety personnel who shall be skilled to modern equipments to save life and dilute casualties as well as dousing fire. Approximately more than 10000 (1lac) skilled personnel needed in our country, each year to ensure safety from fire. High Rises, industries, Institutes, Hospitals, Shopping Malls, Airports, Railways, Electrical Installations, Oil and Gas Sectors including refineries, petro chemical complexes etc require safety from fire and disaster at first order and fire-fighting and safety personnel of highest order.

A skilled fire-fighting person at the entry gets a package of RS.15000/- to Rs.20000/- per month plus other incentives in Government and private sectors. Skilled officials get much higher packages.

However, each sector needs specialized system of combating fire and ensuring of safety, instillation of equipments, audit of safety and its management and training of personnel. Job potentiality is highest in Gulf countries as due to huge oil reservoir as they are the most fire-prone area of the world. Undoubtedly the highest budget of fire prevention and fire protection spent in the world is in the Gulf.

In advanced world, safety is an integral part of most of University programs, it is in fact an index of industrial growth.

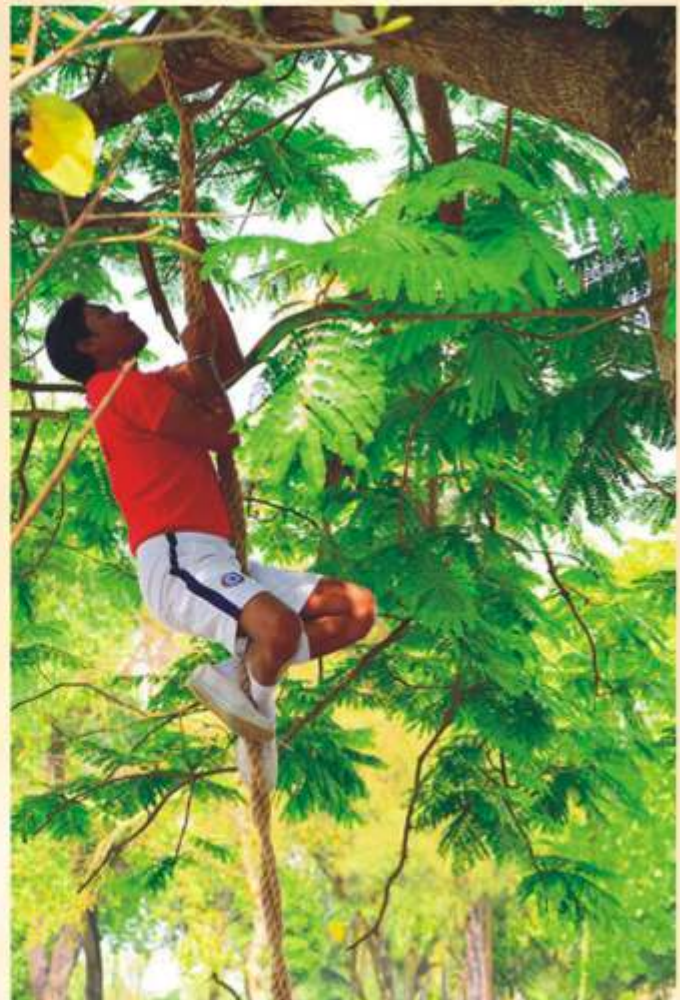

With strong demand of civil sites, metros, projects, lanes, industries are constructed in India now, and with an Increasing number of consumers demanding developers who adhere to government norms, good engineering practices and safety and the increasing regulation of real estate space, we feel compelled to say that fire and safety education will definitely see growth in India growing forward.

Job Opportunity and Placement

PRISTINE in collaboration with Maulana Abul Kalam Azad University of Technology (MAKAUT), has created a unique placement cell to give assistance in job to successful candidates in India and abroad. Job options are tremendous in Fire And Safety courses as there are less number of candidates in this field. While one can get recruited in both government and private sectors, he may also choose to become an independent Fire and Safety Consultant after completing a relevant fire and safety course, In government sector there is abundant job in Defence Forces, Railways, Airport Authority of India, Electricity Board, CISF, ONGC, Mines, Refineries, Petrochemical Complexes, Fire Brigade or other such organizations. As safety is a major concern, most established companies like Reliance Energy also hire Fire and Safety personnel to protect their companies from untoward incidents. With increasing number of Mall and High Rise Buildings, the job opportunity is more than ever.
